

Welcome from the Girls Coalition of Southwestern Pennsylvania!

As a network of providers, funders and community leaders dedicated to improving the lives of the girls in our region, we wanted to find a way to easily identify local opportunities for girls living in Southwestern Pennsylvania. To address that need and to fulfill our mission of bringing together people and resources to educate, advocate, and network on behalf of girls, we created this resource directory.

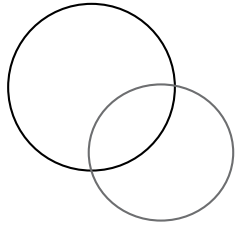

We were happy to find that the directory was a valuable resource to many over the past year and we are excited to present an updated version of that directory this year. In this directory, you will find detailed information about organizations that provide many different services or support that focus on improving the well-being and futures of girls living in Southwestern Pennsylvania.

As we move forward, the Girls Coalition will be seeking opportunities to directly impact the gender equity and the economic empowerment of girls and young women in our community. We hope that this resource directory will increase your knowledge of the current opportunities available to girls and inspire you to join us in the development of opportunities where there are gaps.

We look forward to working with you and thank you for being a champion for the girls of our region.
